

## Project Framework

Date:

Grantee Organization/Cohort:

Grantee Contact/Program Officer:

Program or Project Name:

Total Amount Funded:

Year in Funding / Out of Total Years Funded:

Objective(s) for grant agreement:

What ideally do you plan to accomplish with these funds this year? List up to 5 points of activities/outcomes per year that tie to your objectives.

What activities we plan to do	What we hope to see happen (what we will see or hear that's different if we do our planned activities)	What information/evidence will help us know whether we've made progress (what we are measuring, how and when we collect info, how we plan to use the information)

At our six-month learning check in we would like to hear how your planned activities are going, what you're learning about your program or project, what adjustments you've had to make, and what you are seeing as early results of your work. Your program officer will share the questions we use for this check in with you so you'll know what to expect.

At twelve-months, we will also ask you to report your reach, the demographics of those reached (if you collect any), and a reconciled budget. Your annual report will also include a learning call. Your program officer will provide you with specific details ahead of your report due date.
