

Quarterly Stewardship Report

Q2 2026 | April – June

Sharing how we invest community resources
and partner with Denver every quarter.

HOW WE AWARD GRANTS

Every grant decision starts and ends with community.

Denver shapes our funding priorities, community members review applications, and lived experience guides every decision.

Reflections from each cycle inform the next Call for Proposals and community engagement efforts.

HOW WE OVERSEE GRANTS

Awarding a grant is just the beginning.

Every grantee goes through a structured evaluation and learning process throughout their grant year. We learn together and make sure funds are making a real difference.
